How DeepGrade Works?

1

Select / Add

Teachers could choose questions from our question library or add their own.

2

Help & Assistance

DeepGrade academic team helps in configuring questions / creating question papers.

3

Conduct Test / Exam

Conduct exams / tests as usual in school. (follow certain guidelines)

6

DeepGrade Identification

DeepGrade identifies the answer papers of the students and dissects each and every single answer individually.

5

Upload to DeepGrade

Upload the answer papers of the students in DeepGrade.

4

Scan the answer papers

Quick scanning of 100's of answer papers in minutes.

7

Handwriting Extraction

DeepGrade extracts the handwritten text of students. Our accuracy rate is over 97 %.

8

DeepGrading

DeepGrade grades the answers of students comparing the context, intent and meaning to that of the answer key.

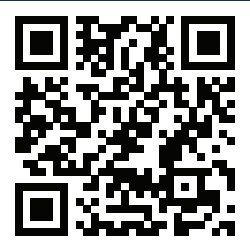

Students can write in their own words and still grading is accurate.

9

Analysis

DeepGrade provides deep insights into student performance which helps teachers understand learning gaps.

What School Leaders Say about Us

“

DeepGrade is a time saver, it enhances teachers productivity. The analytics given by DeepGrade has been helpful in improving learning outcomes & identify learning gaps. DeepGrade is game changer in Artificial Intelligence space.

Mr. Mohnish Yerra

Promoter, Vidyananda Educational Society, Delhi Public Schools Group, Hyderabad

”

“

DeepGrade has been implemented in our school, we find it running very good first of it kind. Descriptive answers could be graded using this program and we are able to measure the growth & success of students using the internal assessments conducted using DeepGrade. Also it is a repository for us, and it helps takes us further directions to strengthen the teaching and learning process.

Smt. A. Lakshmi Prabha

Senior Principal & Member Secretary, Prasan Vidya Mandir, Chengalpattu
Vice Chairperson Chennai Sahodaya Schools Complex

”

“

I have been following the progress of DeepGrade for past 3 years. DeepGrade has evolved through the years to be a better product every single day, DeepGrade greatly aligns with the vision of NEP 2020 by bringing Artificial Intelligence into Assessments. It provides great benefits to teachers and principals in accurately identifying the learning gaps of students.

Dr. Priyadarshi Nayak

Sr. Principal, St.Xavier's Senior Secondary School, Cuttack
& Academic Head, St.Xavier's Group of Schools
